PRRA
Portage Regional Recreation Authority Inc.

QUESTIONS AND ANSWERS

Exactly when will the pool close?

The pool will close October 31 unless early snow this year requires the date to be advanced.

What repairs are required to the pool roof?

The full extent of the repairs is yet to be determined.

Will other areas of the building have to close?

At this time, we do not expect other areas of the building to close.

How much will the repairs cost?

The total cost is yet to be determined.

Who will pay for the repairs?

The Portage Regional Recreation Authority, which owns and manages PCU Centre, has applied to the Court for permission to commence legal proceedings against parties involved in the design and construction of PCU Centre to seek compensation for the costs of the repairs.

When will repairs start and how long will they take?

Most repairs will take place next year in late spring and early summer. The roof can only be replaced during the warm months, and it is likely most efficient to make all the necessary repairs at the same time. The goal is to have all repairs complete by the start of the fall 2017 swim schedule.

How will members be affected?

The current session of swimming lessons will be complete before the scheduled October 31 closure. People with aquatic memberships or joint aquatic/gym memberships will be refunded relevant fees or receive a credit for future memberships.
