Ω PRESS RELEASE & PHOTO OPPORTUNITY Ω

CONSTRUCTION OF THE PCU CENTRE IS UNDERWAY – Construction of the new PCU Centre officially began on September 29, 2008 and progress has been steady beginning with the development of the main arena.

As construction continues, there will be many trades, equipment and activity on site. It is important to remember that for the safety of the public and the safety of the construction workers that the restrictions and regulations for safe construction site practices are respected. Any visitors are asked to report to the Site Superintendent located at the Dominion Construction trailer. General admittance is not permitted without a prior safety orientation, approval and appropriate safety gear. Approved visitors must be wearing personal protection equipment at all times, such as a hard hat, safety footwear and high visibility vests.

In an effort to share each exciting development as the PCU Centre takes shape, a new website has been launched. Visit www.pcucentre.ca weekly for new photographs of the construction site, updated planning information, fundraising information and progress reports. It is also an opportunity to post questions for additional information. The website is currently managed by the Department of Recreation and Leisure Services who may be reached at 239-8324.

PHOTO OPPORTUNITY

Media representatives are invited to attend a brief, guided tour through the construction site for a photo opportunity. The tour will take place on Monday, November 10, 2008 at 3 pm. Only those who have confirmed their intent to attend will be permitted on site. Please confirm your attendance by Monday at noon by contacting 239-8324.
