

Press Release

June 5, 2006

4:30 P.M.

“Public Input for the Multiplex Recreation Facility Begins”

The Portage Recreation Committee and the City and Rural Municipality of Portage la Prairie, are pleased to announce that there will be three ways available to the public to present their views on a proposed Multiplex for our community. These elements include:

- Meetings with recreation facility user groups
- A recreation facility needs assessment survey and
- A public open house

There will be four meetings with selected recreation facility user groups in June, with the public open house scheduled for June 22, 2006 and commencing at 7:00 p.m. at the William Glesby Centre. These sessions will be facilitated by the project consultants; Stantec Architecture and Mr. Brian Johnston of Professional Environmental Recreation (PERC).

The recreation facility needs assessment survey will be distributed to each household in the City and Rural Municipality of Portage la Prairie.

The public input process will continue to the end of June and this information will provide the project consulting team with the public views on facility design.

More public input sessions are scheduled throughout the summer months.
