** PRESS RELEASE **

PCU CENTRE FUNDRAISING UPDATE – Phase III Fundraising Press Conference and Thermometer Launch has been scheduled for Friday, June 26 at 11:00 am located on the green space just east of the Petro Canada Station along Saskatchewan Avenue West.

There is an open invitation to all businesses, and individuals to attend and pledge their support to the PCU Centre. Mayor Ken Brennan and Reeve Toby Trimble will be in attendance to announce the total funds pledged to date and to unveil the new “Thermometer Fundraising Goal” sign.

“The Portage Multiplex Committee is working hard to bring this project to a reality, and to build the PCU Centre right the first time. It is time to give generously and contribute to this lasting legacy for generations to come.” Mayor Brennan.

“The PCU Centre is in it’s final phase of fundraising and we welcome all pledges to help reach our overall fundraising goal of \$4.1 Million for the project. We encourage anyone who is considering their support to this community project to pledge their intentions today.” Reeve Trimble.

In addition to the unveiling of the new sign and fundraising update, the event will also include special cheque presentations in support of the PCU Centre.

Please visit our website at www.pcucentre.ca to see construction site photographs of the progress of the PCU Centre to date.
