Ω PRESS RELEASE & PHOTO OPPORTUNITY Ω

PCU CENTRE IS TAKING SHAPE – Construction of the new PCU Centre officially began on September 29, 2008 and progress has been steady beginning with the development of the main arena.

Over the last few weeks, several loads of structural steel have been delivered to the construction site and sorted in preparation of erecting the steel frame for the main arena of the PCU Centre.

Today, the very first steel columns have been set in place and will continue over the next several days. As early as next week, it is anticipated that several of the steel rafters will be raised.

It is important to remember that as construction continues, there will be many trades, equipment and activity on site. We request that for the safety of the public and the safety of the construction workers that the restrictions and regulations for safe construction site practices are respected. All visitors are required to report to the Site Superintendent located at the Dominion Construction trailer.

For regular construction updates, please visit our website at www.pcucentre.ca

PHOTO OPPORTUNITY

Media representatives are invited to attend a brief, guided tour through the construction site for a photo opportunity of the massive steel columns. The tour will take place on Friday, February 20, 2009 at 1:30 pm. Only those who have confirmed their intent to attend will be permitted on site. *Please confirm your attendance by Monday at noon by contacting 239-8323.*
